

Application for Printed Matters

You wish to apply for the Blue Angel eco-label for a printed matter.
In terms of our Basic Award Criteria RAL-UZ 14 or RAL-UZ 72, para. 2, respectively, a printed matter is a finished product.

So, please complete and sign in a legally binding manner **Annex 1B** to the Contract based on the **RAL-UZ 14** Basic Award Criteria.

So, please complete and sign in a legally binding manner **Annex 1** to the Contract based on the **RAL-UZ 72** Basic Award Criteria.

In case you wish to use a Blue-Angel eco-labelled paper you will just have to file a "simplified application". That means you won't have to prepare any test reports for the paper nor will you have to make any further statements on the paper.
In such case, please inform us on page 3 (of 4 pages) about the type of paper (product designation) and please give us the contract number and the manufacturer's name.
Additional material declarations are to be made on page 2 (of 4 pages). If, for example, the product is a flyer you have probably used print colours and adhesives (glues).
Consequently, these materials have to be ticked.

Hence, you will have to submit additional Annexes to the Contract for both print colours and adhesives.

To make a declaration on **print colours** please submit Annexes 2 **and** 3 to the Contract duly signed by the supplier/manufacturer.

To make a declaration on **adhesives** please submit Annexes 3 **and** 5 to the Contract duly signed by the supplier/manufacturer.

Please take particular care that the product designations in the Annexes (2 and 3 as well as 3 and 5) are identical.

Please send us three samples of your product.

Please use the checklist to make sure that your application includes all required documents - completed and signed (and stamped).

We hope that this has made application somewhat clearer and we look forward to receiving your complete application.
